INTRODUCTION

As covered in another issue regarding the FBO Allocation Form, there is a new finance system for orgs which includes their Payments to Flag as a percentage of CGI. This normal routine weekly PTF provides the Mother Church with the wherewithal to conduct strategic programs and projects which provide for the expansion and defense of Scientology\* internationally and which are for the benefit of all orgs.

Missions are another matter. They are far from routine ecclesiastical support services provided to an org and will vary greatly from org to org. They involve an intense and sizeable commitment of resources in terms of time, personnel and other costs. They are therefore billed separately to the org which receives the benefit.

This issue covers the method of payment and the billing rates for the different types of Sea Org missions.

METHOD OF PAYMENT

Payments from orgs for missions they have received are counted as part of the org's Payment to Flag but will be paid from the org's financial planning allocation. The payments will be collected by the FBO from the org and sent to Flag.

The payments are made against billings issued. The billing will be made six weeks after a mission terminates and will be based on the success of the mission.

Additionally, reasonable missionary expenses are also paid by the org and are paid by the FBO, per references given above, from the FO #2 Account. Any additional reasonable out-of-pocket costs not covered out of the FBO #2 Account will be billed 10 the org.

MISSION BILLINGS  
CLASS V ORGS

The org will be billed for missions at the following rates:

TYPE OF MISSION	NORMAL	AFFLUENCE	POWER
- Situation Handling	\$5,000	\$10,000	\$15,000
Project Mission	\$3,000	\$5,000	\$7,500
Observation Mission	\$1,000	\$2,000	\$3,000

This system will bring about correct exchange for management product, as the quality of the mission determines the amount due for payment.
